Global Sustainability Commitment Statement

Desta P.L.C is committed to providing solutions for a more connected, sustainable world. We aim to deliver this by integrating sustainability into our business: and through our business model, our procedures, how we deliver our projects and infusing it across our culture.

Desta P.L.C strives to:

- Positively contribute towards the United Nations Sustainable Development Goals.
- Foster a culture of sustainability that promotes economic prosperity, environmental benefit and social value.
- Continue a dialog with all of our stakeholders to raise awareness of sustainability and provide feedback on how we can do better;
- Research and develop innovative methods and applications for enhanced sustainability performance
- Enable Knowledge sharing and capacity–building around sustainability across our enterprise and on all of our projects: and
- Be accountable for delivering our strategy through the sustainability governance’s structure that reports up to our Board.

As we deliver our new global sustainability strategy, we plan to measure and report on key metrics and set targets to continually improve our performance. We intend to work collaboratively with employees, clients and supply chain to Achieve our sustainability commitments and deliver on our vision of providing solutions for a more connected, sustainable world.
